Professional Summary

A highly skilled Java Developer with expertise in designing, developing, and maintaining Java-based applications. Proficient in writing efficient code, conducting thorough testing and debugging, and collaborating with cross-functional teams to deliver cohesive software solutions. Adept at utilizing Java frameworks such as Spring and Hibernate, designing RESTful APIs, and managing databases with SQL. Familiar with cloud technologies like AWS and containerization tools like Docker. Strong problem-solving skills and a commitment to staying updated with the latest Java technologies and best practices.

Skills

- Java
- Spring Framework
- Hibernate
- REST APIs
- SQL
- Git & Maven
- Docker
- AWS
- Microservices Architecture

Experience

Senior Java Developer – TechNova Solutions, Bangalore, India

Jan 2022 – Present

- Developed and maintained microservices using Spring Boot, Hibernate, and MySQL.
- Implemented RESTful APIs consumed by mobile and web clients.
- Led migration of monolithic application to Dockerized microservices on AWS.
- Mentored junior developers on Java best practices.

Java Developer – Innovatech Labs, Hyderabad, India

Jun 2019 – Dec 2021

- Designed and built scalable backend components.
- Optimized SQL queries, reducing report generation time by 30%.
- Integrated third-party APIs for payment processing.

Education

Bachelor of Technology in Computer Science
National Institute of Technology, Warangal
2015 – 2019

Projects

Inventory Management System

- Developed a complete solution to manage product inventory and orders.
- **Tech Stack:** Java, Spring Boot, MySQL, Docker.

Online Learning Platform

- Built REST APIs for course enrollment, payments, and user management.

Open Source Contributions

- **Spring Framework:** Contributed bug fix for annotation processing.
  View Pull Request
- **JHipster:** Improved Docker deployment documentation.
  View Contribution

Conferences & Workshops

- **JavaOne Conference (Attendee)** – 2023
  Sessions on JVM performance, reactive programming, and cloud-native Java.
- **Spring Boot Live Workshop (Speaker)** – 2024
  Delivered a live coding session on RESTful API development.

Freelance Work

Backend Developer (Contract)
TechNova Solutions
Mar 2023 – Jun 2023

- Built scalable REST APIs for an internal dashboard using Spring Boot and MySQL.

Technical Blogs

- *Understanding Spring Boot Auto Configuration*
  Published on Medium, Nov 2024
  Read Article

Mentorship

- Mentored 3 junior developers in Java and microservices architecture at TechNova Solutions.
- Conducted monthly technical workshops on Docker and AWS deployment.

Certificates

- Oracle Certified Professional: Java SE 11 Developer
- AWS Certified Solutions Architect – Associate

Languages

- English (Fluent)
- Hindi (Native)

Recommendations

"Sarthak consistently delivers high-quality Java solutions and demonstrates exceptional problem-solving skills. He is a valuable asset to any team."
– Anjali Verma, Technical Lead, TechNova Solutions
